## EDUCATION

|                                                                   |                         |
|-------------------------------------------------------------------|-------------------------|
| B.TECH Artificial Intelligence and Data Science                   | 2023 –2027              |
| Sri Shakthi Institute of Engineering and Technology, CGPA: 8.15 * | Coimbatore, Tamil Nadu  |
| Higher Secondary                                                  | 2022 – 2023             |
| Gopi Krishna Matric Hr. Sec. School , Percentage: 87.3%           | Krishnagiri, Tamil Nadu |

## SKILLS

**Programming Languages:** Python, C, SQL

**Libraries/ Frameworks:** NumPy, Pandas

**Web Technologies:** HTML, CSS, JAVASCRIPT

**Tools & Platform:** VS Code, Google Colab, Jupyter Notebook, Git, GitHub

**Core Concepts:** Data Structures & Algorithms, OOPS, ML Basics, Problem Solving

## PROJECTS

**LifeLink Nexus | AI Powered Emergency & Healthcare Hub** | [GitHub Repo](#)

- \* **Tech Stack:** Firebase, Python, Scikit-learn, TensorFlow/PyTorch, HTML/CSS, JavaScript
- \* Integrated ML/DL algorithms across modules for heart-disease prediction, preventive diagnostics, and personalized health recommendations.
- \* Developed donor-recipient matching and smart pharmacy routing systems using predictive machine learning models.
- \* Engineered an AI-centric architecture where automated ML/DL pipelines enhanced decision-making and healthcare intelligence.

**Customized Easy Explorer | Intelligent Tourism Platform**

- \* **Tech Stack:** JavaScript, HTML/CSS, Firebase (Firestore), Python (ML), Scikit-learn
- \* Developed an intelligent tourism-finder system using real-time state-district mapping with Firestore integration to fetch dynamic tourist locations.
- \* Engineered a machine learning module that analyzed user behavior to generate predictive, personalized recommendations, increasing discovery accuracy.
- \* Designed and implemented full front-end UI with interactive features using HTML, CSS, and JavaScript for seamless user experience.

## PATENT & PUBICATION

**LifeLink Nexus: AI Powered Emergency & Healthcare Hub**

Published in: HBRP Publication

Docket Number: 108663

## EXPERIENCE

### SOFTNEXIS:

**Data science with python Intern(AUG 2025)**

- \* Developed predictive models and analytical solutions to support key business objectives using Python, statistical analysis, and machine learning.
- \* Contributed to the end-to-end project lifecycle, from data wrangling to model validation and deployment, extracting actionable insights from complex datasets.

**EDUNET foundation (AICTE):**

**AIML Intern (JAN 2026 – FEB 2026)**

- \* Engaged in an AI-focused virtual internship under AICTE-IBM SkillBuild, working on data science and machine learning-based analysis and prediction tasks.
- \* Gained hands-on experience in model development, evaluation, and real-world AI workflow implementation.

## CERTIFICATIONS

- \* Cybersecurity with cloud computing – LinkedIn Learning
- \* Machine Learning – Simplilearn
